Enhance the appearance of the fire’s flame with this opaque reflective glass-ceramic. It is used both on the back wall of the stove to capture the entire dimension of the fire and as stove covering (side or top with hole for pipe).

**Characteristics**

- Flat, cut-to-size parts only
- Thickness: 4 mm
- Black glass-ceramic
- Smooth / Pebbles
- 700°C (1292°F) in continuous use and easier to clean than most regular inside wall materials
- Gas fireplaces only
