

The logo for KeraLite, featuring the brand name in a white sans-serif font. The text is enclosed within a white, stylized L-shaped frame that forms a partial square, with the top-right corner missing. A registered trademark symbol (®) is positioned to the upper right of the 'e' in KeraLite.

KeraLite®

A text overlay consisting of two lines of bold, sans-serif text. The first line reads 'THE BEAUTY OF FIRE' and the second line reads 'THE ELEGANCE OF GLASS-CERAMIC'. The words 'FIRE' and 'GLASS-CERAMIC' are highlighted in a vibrant orange color, while the remaining words are in white. The text is centered horizontally and positioned in the middle of the image.

THE BEAUTY OF FIRE
THE ELEGANCE OF GLASS-CERAMIC

The logo for eurokera, featuring the brand name in a lowercase, sans-serif font. The word 'euro' is in white and 'kera' is in orange. The logo is positioned in the bottom right corner of the image.

eurokera

BORN IN FRANCE, SERVING THE WORLD

In 1990, **Saint-Gobain and Corning** joined forces to create EuroKera.
The **French historical glass manufacturer**, Saint-Gobain, combined their knowledge with the ingenuity of the **American technical glass expert**, Corning.

CORNING

Since 1665

- 46.6 billion (€) in sales in 2024

About EuroKera

FROM THE **KITCHEN** TO THE **FIREPLACE**

Our passion for cooking drives **innovation** that takes us...

beyond kitchen
products...

and **into the**
living room.

KeraLite®

THE ONE MATERIAL
THAT PROVIDES SAFETY
AND COMFORT

High-performance **glass-ceramic** engineered for extreme heat and unmatched safety, in modern wood, pellet and gas heating appliances

Thermal expansion coefficient **close to 0**

Withstands temperature levels **up to 1292°F** in continuous use

Withstands **high thermal shocks**

UL component certified

KeraLite® is a registered trademark owned by

eurokera

OPTIONS

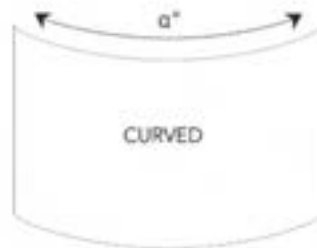

KeraLite® Transparent is available in different **shapes, processing options, printing options** and **various technical coatings**.

SHAPES

FLAT

Flawless flatness. Plain and simple. For the modern and sober designs.

CURVED

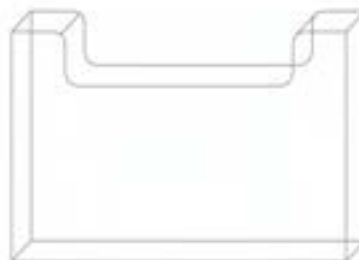

Curved shapes have been engineered to match new stove designs and to improve the view of the flames from any side of the room.

PROCESSING OPTIONS

DRILLED HOLES

Enables the glass-ceramic to screw onto a frame with ease.

WATERJET CUTS

Making door handle integration a piece of cake. We can cut any shape.

FLAT EDGING

C-shape or pencil edge, flat, beveled. We do it all.

OPTIONS

PRINTING OPTIONS

Gradient Dot Patterns Available

OPAQUE FRAMES

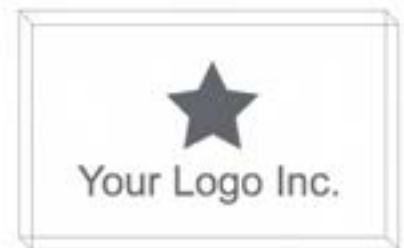

A masterpiece needs a frame. Wide range of gradient dot patterns available.

INNER SIDE Opaque Printed Frame
OUTER SIDE Semi-Transparent Decoration

DOUBLE-SIDED FRAMES

Unlimited designs, texture and 3D effects to make the glass-ceramic appear as though it has taken on the look of different materials like metal, wood, stone, fur, etc.

LOGO PRINTING

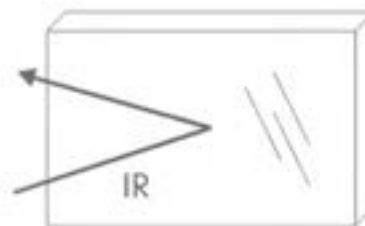

Digital printing on the outer surface. Sign your masterpiece.

SPECIAL COATINGS

ANTI-REFLECTION (AR)

Gaze into the flames without the distraction from the reflections.

INFRARED (IR)

Improve the thermal efficiency and keep the window cleaner for longer.

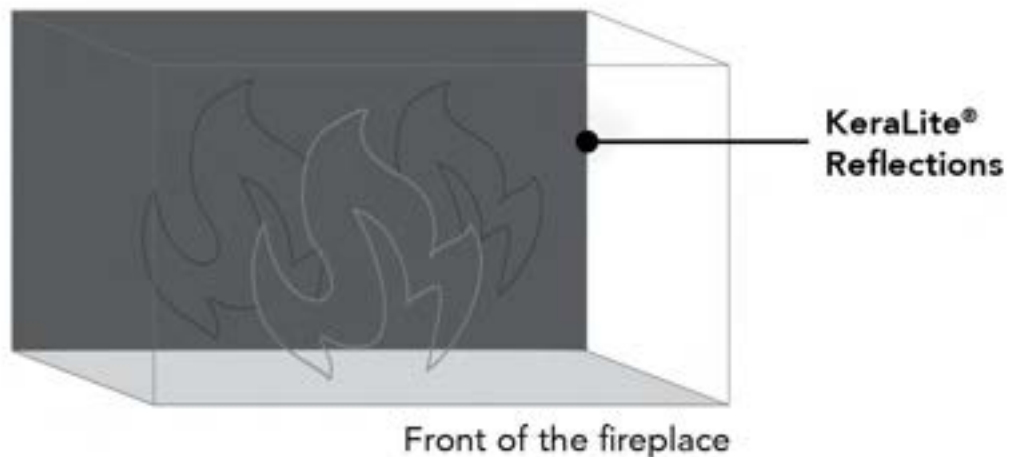

Fire OFF

MIRROR (Silver and Gold)

Decorative appearance of a mirror on the full surface when the fire is off.

THERE IS BEAUTY IN THE DARKNESS

KeraLite® Reflections is our range of **opaque glass-ceramic**, available in black or white. KeraLite® Reflections is ideal to **cover the back of your fireplace** and **enhance the effect of the fire's flames** with its **opaque reflective aspect**.

Used as a **liner inside gas stoves** to capture the entire dimension of the fire

Provides **high-end, modern, and long-lasting** look inside the home

Thermal resistance **up to 1292°F** in continuous use and **easier to clean** than most regular inside wall materials

Available in **black or white glass-ceramic** with or without decoration

OPTIONS

Our KeraLite® Reflections solutions are **customizable** with a **wide range of printing and processing options.**

PRINTING OPTIONS

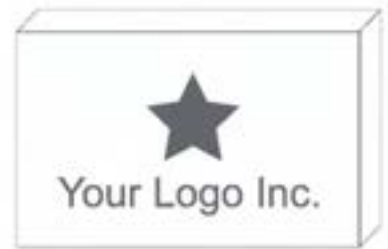

CUSTOM DESIGNS

Add a design that will not fade over time.

TEXTURE PATTERNS

Make glass take the appearance of other materials such as stone or marble.

LOGO PRINTING

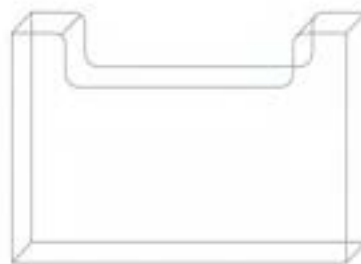

Screen printing that never fades thanks to a specific heat treatment.

PROCESSING OPTIONS

DRILLED HOLES

Enables the glass-ceramic to screw onto a frame with ease.

WATERJET CUTS

Making door handle integration a piece of cake. We can cut any shape.

FLAT EDGING

C-shape or pencil edge, flat, beveled. We do it all.
